

VANCOUVER ISLAND & BC SHORT TRACKS

RESTLESS Racing

SPONSORSHIP PROPOSAL

Late Model #17 | Street Stock #50 | Driver: Matthew Chitty

BUILT ON LATE NIGHTS & EARLY MORNINGS

Restless Racing is a family-operated stock car team based in Langford, BC, built on late nights in the garage, early mornings at the track, and a shared love of speed. Behind the wheel is **Matthew Chitty** — a consistent podium finisher on Vancouver Island's short tracks, and the **last Claimer Class Champion in Western Speedway's history**, crowned in 2022 before the legendary Langford track ran its final season.

For 2026, the team is racing a focused two-car program — the **#17 Late Model** and the **#50 Street Stock** — competing at tracks up and down the BC interior and Vancouver Island. It's grassroots motorsport in its truest form: a small team, a big effort, and a fan base that follows every lap.

Every race, both cars carry a little more than horsepower — a small tribute on the body reads "In Loving Memory, Mom, 1950–2022." A reminder that this team races with heart first.

THE PROGRAM

TWO CARS, *ONE FOCUS*

17

LATE MODEL

CHEVROLET MONTE CARLO SS · 450HP

The flagship of the Restless Racing program. Late Model is the premier division on Vancouver Island's short tracks — full-fendered, full-power, and racing against the region's toughest competition every weekend out.

50

STREET STOCK

1982 CHEVROLET MONTE CARLO

The car Matthew built his reputation in. Street Stock is close, aggressive, fender-to-fender racing — and the division where Restless Racing puts on some of its most consistent podium performances.

Both cars carry sponsor branding at every race, every points night, and every special event across the 2026 season — plus year-round exposure through team photos, race recaps, and social media.

WHERE WE *RACE*

Restless Racing competes at BC's top short tracks, putting sponsor branding in front of live grandstand crowds, track livestream audiences, and the local motorsports community all season long.
